

Bargello Card Holder

If you spot one of these open-grid desk organizers in a home goods or office supply store, grab it! They make wonderful, alternative bases for stitching. We chose a Bargello pattern to decorate this particular model, but you can choose many different kinds of stitches. Use Kreinik metallic ribbon or braid for the embroidery; the metallic colors stand out and add elegance to the design.

Materials needed:

wire mesh desk organizer
 Kreinik 1/8" Ribbon in three colors (we used 021L, 025, and 3232)
 #22 or #20 Tapestry needle

Instructions:

Follow our diagram and photos as guides, or use any Bargello pattern to stitch the design onto the mesh organizer.
