- Kreinik #12 Braid 032 Pearl, 5982 Forest, and 027 Orange
- Wax paper or tracing paper
- shallow pan or tray

INSTRUCTIONS:

This unique fabric piece already has the design imprinted on it. So all you have to do is attach double-sided Treasure Tape to the areas you want to embellish, decorate with Kreinik threads, then adhere clear Diamond Beadlets®. We decorated her wings, cuffs, and floral headband.

TO EMBELLISH:

1. Lay a piece of wax paper or tracing paper over the areas you want to embellish and trace. Use a small piece of tape to attach this wax paper to the red side of the Treasure Tape sheet, and proceed to cut out the area you have traced.
2. Take this piece of Treasure Tape and remove the white backing to expose sticky part. Lay on your fabric panel over the area you want to embellish.
3. Remove the red liner from the tape to expose this sticky side. Decorate with Kreinik threads in random patterns, swirls, straight lines, etc. Follow the pattern on the fabric for an easy design.
4. When thread decorating is complete, lay your project face up in a shallow pan or tray, then cover all sticky areas with Diamond Beadlets®. Swirl your fingertips over the beads to make sure the areas are fully covered. Shake piece to dislodge loose beads.

FINISHING:

This can be made into a pillow, as we've have done, or made into a small quilt to decorate a little girl's room. If you're a non-sewer, find a seamstress at your local fabric store to finish the project as a pillow or quilt, or ask a friend to help.
