

a green CHRISTMAS HOLIDAY ORNAMENT

This time of year, you can find photo-frame ornaments in stores. These frames are ideal for quick cross stitch projects like this design. You can almost smell the peppermint and evergreen from the stitches!

Materials needed:

- Purchased photo frame ornament (we found ours at Walmart)
- 3" x 3" piece of cream or tan perforated paper (Wichelt Imports)
- Kreinik Fine #8 Braid in 003 Red, 100 White, 008L Kinetic Green
- #24 Tapestry needle

Instructions:

1. Cross stitch the design centered on the perforated paper following the color key. Use one strand of Braid for all cross stitching or straight stitching. Note: if your frame is larger or smaller than ours, you may need to add or subtract stitches to make the design fit.

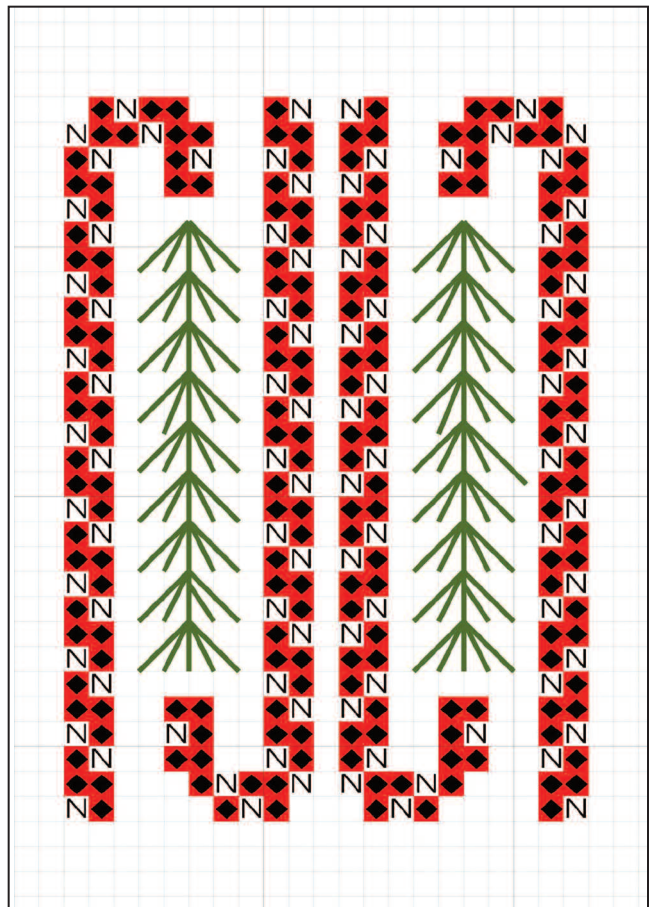

Color Key:

⌞ #8 Braid 100 White

◆ #8 Braid 003 Red

▬ #8 Braid 008L Kinetic Green (shown on chart as straight stitches - for the trees)

2. When stitching is complete, trim design as needed to fit inside your photo frame.
