LAURA PERIN FOR KREINIK

- Kreinik Silk Mori in 1047
- Kreinik Blending Filament in 002V and 024HL

## INSTRUCTIONS:

Stitch this design centered on your 20-count perforated paper Tokens & Trifles Kugel shape. Do not stitch the black outline; that is for reference purpose only to illustrate the edge of the design area. Use one strand of Silk Mori or Blending Filament according to the color key at right.

Note: it may be easier to stitch with the filament if you remove the thin polyester core, leaving only the metallic for stitching.
