

We're revolutionizing crafting by inspiring adults and kids to instantly turn plain objects and flea-market finds into embellished **personal expressions**. With our amazingly strong double-sided **Treasure Tape™** and **awesome thread** and **vintage embellishments**, you can decorate almost anything. No more messy glue or paint!

BEFORE

Here's how to use beads, tape, and thread to embellish anything. Follow the tree project as an example.

Minimum requirements:

- Diamond Beadlets
- Mrs. K's Dimensional Threads for embellishing, in colors to complement your project
- Treasure Tape™ in sheets, shapes or rolls to fit your project area
- Object to decorate (fabric, paper, wood, stapler, cell phone, scrapbook, etc)

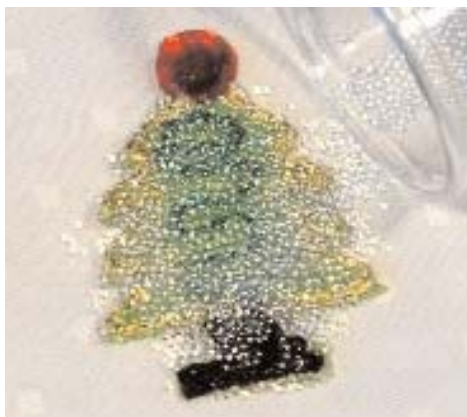

1 Using sheets, rolls, shapes or dots of Treasure Tape™, remove the white backing and adhere tape to your object. Then remove the tape's red liner to expose the sticky part.

2 Decorate your object with any large objects first, such as buttons, Vintage Finds, etc. Then draw, write, or outline areas with colors of Mrs. K's Dimensional Threads from Kreinik.

3 Bead it, by placing your object in a shallow pan and pouring Diamond Beadlets® over any remaining sticky areas.

Then treasure it!

Use scrap pieces of Treasure Tape™ to attach your object to cards, gift bags, purses, wooden objects, and more.

AFTER!

You can buy online! Products available from www.kreinik.com
