Hints!

Kreinik Very Fine (#4) Braid is a perfect thread size for stitching on 16- or 18-count fabrics (or stitching over two threads on 32-ct linens).

Use it straight from the reel (do not separate into plies). For any stitching thread, use short lengths—no longer than 15 inches—to reduce tangling and knotting. (Shorter lengths are easier to control!).

You may also wish to let your needle dangle every few stitches to let the thread relax. The way we twist the needle as we stitch, combined with the natural twist of a thread, can lead to knots and tangles and loops. Letting your needle dangle eliminates many of these problems.
