- ✦ Backstitch DMC 310/ANCHOR 403: all other

## Instructions:

Cross stitch this design centered on your fabric, using two strands of floss or one strand of Braid according to the Color Key. The halo and clouds are stitched with floss and filament, which are usually used at the same time in the same needle. If you prefer, stitch the area in floss first, then go back over with a single strand of Blending Filament by itself in the needle, adding highlights over the cotton.

We have listed both DMC and Anchor conversions, so you can use either brand for your floss. To find Kreinik threads at a shop or mail order source near you, visit the Shop Locator on [www.kreinik.com](http://www.kreinik.com), or call us at 1-800-537-2166.
