INSTRUCTIONS

1. Outline the star shapes on the 8.5" x 11" background paper with black Iron-on Braid.
2. Add red Iron-on Ribbon to accent the red star.
3. Cut out the letters "G Y M S T A R S" from red cardstock with the shape cutter. Adhere the letters to the page with your favorite adhesive.
4. Add black Iron-on Braid accents on the letters: place the braid around the letters or on top of the letters.
5. Mount your photo, or a color copy of your picture, on black cardstock.
6. Add a red iron-on border to the black cardstock (be careful not to touch the picture with the iron! If you are worried about ruining the picture, make a mat that is half an inch longer on each side than the picture first. Add the fibers next and the picture last).

8. Add a black Iron-on Ribbon border.
9. Attach the picture to the page with the brads.
