

# “I love you” Gift Box

Transform an inexpensive blank box into a personalized treasure chest, with Kreinik Iron-on Threads. Quick, easy, instant results.

## Materials:

- Kreinik Iron-on #16 Braid in 6120 pink, 6420 sky blue, 6410 confetti pink, 6010 pearl
- Kreinik Teflon Press Cloth
- Mini Iron or household iron
- undecorated, heart-shaped paper mache box (medium size)
- pencil

## Instructions:

*Make sure the surface of the box is smooth, clean and dry.*

1. Turn on your iron to the highest heat setting. Allow it to heat thoroughly.
2. Take a pencil and lightly sketch how you want to decorate your box. Follow our photo as a guide, or design your own.
3. Begin with any thread color. Lay the thread on the box lid, cover with a Teflon Press Cloth, and press with your iron for several seconds or until the thread adheres. This will tack the thread end down at your starting point. Proceed to iron the thread in sections, following your design. Change thread colors as desired. This is your personal touch - so have fun and play with the colors and patterns.
4. We also decorated the side of the box in the same manner, using a single color of iron-on thread.
