

Machine Sewing Threads

Metallized Pure Silver Gimp Threads

Have a **need for speed**? Kreinik Silver Gimp Thread is a high-speed dream, designed to perform beautifully at speeds as **fast** as 1200 rpm, *hassle-free*.

QUALITIES

This **smooth, round** metallic thread has a rice paper base to give it **extra strength**, then it is laminated with silver and wound around a nylon core. The silver reduces static (improving performance) and makes it **anti-microbial** (resistant to fungus).

- For all stitches and bobbin work on all fabrics
- Ideal for long-arm quilt machines, all sewing machines, sergers (loopers), embroidery machines
- Use a NEW Topstitch or Sharp needle, size 14 or 16, or a Metallic needle in size 14/16
- Similar in weight to size #40 cotton
- Adjust tension as necessary. Bypass the last guide before the needle to reduce tension if needed.

COLORS

CARE

Machine wash warm, hang to dry or tumble dry on low (turn garment inside out). Iron on low with a press cloth. Do not bleach. Dry cleanable.

Fine Twist Threads

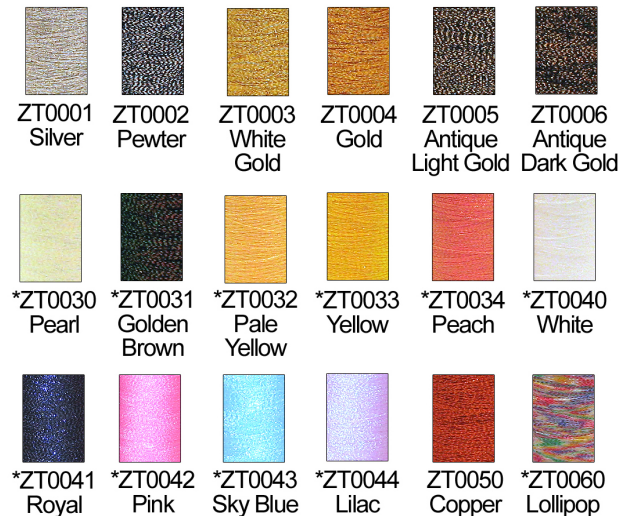

Stand out with a thread that **stands up**. Kreinik Fine Twist Thread is where **reliability** and **versatility** meet **subtle color**.

QUALITIES

- Made of polyester and nylon
- Use on all fabrics, for quilting, fiber art, fashion
- Beautiful in all stitches, especially free-motion quilting
- Perfect for standard sewing machines. Use at reduced speed in embroidery machines.
- Use a NEW 14 or 16 Topstitch, Sharp or Metallic needle
- Similar in weight to size #40 cotton
- Adjust tension as necessary. Bypass the last guide before the needle to reduce tension if needed.
- ***Select Fine Twist colors are enzyme-resistant** (the metallic won't fade when bleached)

COLORS

CARE

Machine wash warm, hang to dry. Iron on low with a press cloth. Use low concentrate bleach. Dry cleanable.

Fashion Twist Threads

Pump up the **volume** and turn up the **lights**—Kreinik Fashion Twist Thread gives fun, colorful, metallic highlights to clothing, quilts, or textile creations.

QUALITIES

- Made of 100% polyester with a laminate of silver, this thread is **anti-microbial** and **enzyme-resistant**.
- Adds a variegated, metallic highlight to designs
 - Use on all fabrics; excellent for denim
 - Perfect for running and top stitches plus bobbin work and free-motion designs; reduce speed when sewing decorative stitches
 - Ideal for standard sewing machines and embroidery machines
 - Excellent in looper or serger
 - Use a NEW 14/16 Topstitch, Sharp or Metallic needle
 - Ideal for quilt, clothing, and other embellishing, plus use in fabric creation (hosiery, healthcare fabric, knitwear, military textiles, baby items, costume fabric)
 - Similar in weight to size #40 cotton.
 - Adjust tension as necessary. Bypass the last guide before the needle to reduce tension if needed.

COLORS

CARE

Machine wash warm, hang to dry. Iron on low with a press cloth. Use low concentrate bleach. Dry cleanable.

Metallic Gimp

Bold and beautiful. This round, wrapped metallic thread of 59% nylon and 41% polyester offers you bright color and distinct lines in any embroidery or quilt pattern. Achieve the smoothest look with one of the strongest metallic threads.

QUALITIES

- Use in all stitches and bobbin work on all fabrics.
- Use on long-arm, sewing, sergers, and embroidery machines
- Use a NEW 14 or 16 Topstitch, Sharp or Metallic needle
- Adjust tension as necessary. Bypass the last guide before the needle to reduce tension if needed.

Kreinik Machine Sewing Threads Testimonials...

- Used by professionals around the world...

"I'm working on a quilt with lots of free motion work. I used it on the stars and wings and had no breakage, splitting, shredding, nothing."

—Patti Medaris Culea, quilt and cloth doll artist

- Creates a delicate yet brilliant metallic look for embroidery and embellishing...

"It was like quilting with a fine line of liquid glitter."

—Marybeth O'Halloran

- Performs at production speeds...

"High speed is correct! We tested this thread on every type of machine we could, from home and commercial embroidery machines to home and commercial quilting machines with great success on all..."

—Quality Sewing & Vac Sewfun Flier
